DETAILED ACTION

Claim Objections

1. Claims 45-47 are objected to because of the following informalities: claims 45-47 should be renumbered to 46-48 because the claims are numbered having 45 repeated. Appropriate correction is required.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claim 41 is rejected under 35 U.S.C. 102(b) as being anticipated by Cho (5,646,613).

Cho discloses a method for restraining occupants of a motor vehicle having a plurality of inflatable members 14,16 mounted on the vehicle and collectively positioned in substantially surrounding relation to an occupant, in an impact involving the motor vehicle, comprising the steps of: a) detecting a location of the impact on the motor vehicle; b) in response to the detecting of the location of the impact on the motor vehicle, selectively inflating a first of the inflatable members; and c) subsequent to the step b), selectively inflating a second of the inflatable members.

Allowable Subject Matter

4. Claims 35-40 and 45-47(should be 46-48) are allowed.

Art Unit: 3616

5. Claims 42-45 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
